

PIM 20 Mechanical Tweezers model 20**DESCRIPTION :**

- Force setting at welding start with a compressed spring from 0.2 daN to 5 daN.
- Fixed electrode - Electrode diameter 3 mm réf. 2340.

Cable section 16 mm², length 1 m.

- Equipped with a dry contact plug (Amphenol).
- Weight : 1.1 kg.
- Quick disconnect plug version.

APPLICATIONS :

- Mechanical tweezers for spot welding : metal foils, sheet metal, wires and various parts difficult to reach or with complicated geometry.
- Applications needing high flexibility.
- Operational with all SOUDAX generators range.

**PIM 20**
