

PS 5 Welding handle 5 DaN

DESCRIPTION :

- PS 5 welding handle has the same features as welding pen CS 5 but with electrode operating perpendicularly to the center line.
- Force regulation by stressed spring from 0.5 DaN to 5 DaN.
- Electrode M3 or M6.

Cable section 16 mm², length 1200 mm.

- Equipped with dry contact plug (Amphenol).
- Weight : 0.5 kg

USE :

- Welding handle to spot weld thermocouples or strain gauges, assembly of stainless steel terminals, heating resistors, etc...
- PS 5 welding handle can be used in the same kind of applications as welding pen CS 5 but allows to reach areas inside tubes, etc...

PS 5
